MACSEN LAMPS

ABOUT US

Macsen Lamps is a family run business, established in 1982. We supply the motor and marine trades with a comprehensive range of cables, bulbs and auto electrical consumables at very competitive prices. We pride ourselves on looking after our customers and going that extra mile. Many of our customers have been with us for over 20 years.

COMPANY HISTORY

Macsen Lamps was created in 1982 by John McCormick. With 10 years motor trade experience, he had frequently been asked to supply bulbs, and Macsen Lamps was born to satisfy that demand. John started by supplying bulbs only, to the motorcycle shops and garages in the North West of England, and is still supplying some of them today. His associate at the time, Bernard Senior, ran the same operation in the North East of England. This association gave rise to the unusual name, "Macsen". John amalgamated the two areas in 1983 when Bernard retired.

John soon realised there was a big demand for automotive cable and began to supply this to both the motor and marine trades.

John was very pleased that his daughter, Andrea, joined the company in 1994 and that his son Paul also joined in 2018.

OUR AIM

Macsen Lamps aim is to supply the most comprehensive range of quality cable, bulbs and auto electrical consumables throughout the whole of the UK at the most competitive prices.

TO PLACE AN ORDER:

Simply phone or email with your requirements and we will usually deliver your order to you within 2 working days. The minimum order from this catalogue is £25+VAT.

Standard reel sizes/quantities are displayed in this catalogue, and our cable colours and codes are listed below.

To order cable select the part number from the catalogue with the appropriate colour code at the end. For example: 1mm² single core thin wall cable in

BLACK would be CTW012**BK**

For **RED** it would be CTW012**RE**.

The standard reel size for that cable is 100m which is shown in the catalogue. Other reel sizes are available in most cables, just ask for alternatives.

Cable Colour Codes

BK - Black	OR - Orange
BU - Blue	PK - Pink
BN - Brown	PU - Purple
GR - Green	RE - Red
GY - Grey	WH - White
LGR - Light Green	YE - Yellow

THIN WALL CABLE

In many ways Thin Wall Cable is the more modern and technically advanced version of the Standard PVC BS6862 cables. Thin wall cables are high temperature, low voltage for usage in the automotive, marine and other likewise industries.

- Weighs less. More commonly found in vehicles post 1995.
- Thinner to save space - approximately 30% less volume. Ideal for a harness.
- Higher amp rating for equivalent cross section.
- Harder grade PVC generally means a longer life span.
- Used by the leading OEMS.

- Individual conductors manufactured in compliance with BS EN60228:2005 and ISO 6722-1:2011 (Class B)
- Working temperature range -40°C to +105°C (Single core)
- Maximum voltage 60v - Suitable for 12v and 24v systems
- Hard grade PVC insulation gives excellent resistance to abrasion, moisture, petrol/diesel, oil and diluted acids
- Plain copper stranded conductors - PVC sheathed
- Available in a range of plain and striped outer PVC sheathed colours
- The conductor specifications shown may differ slightly, but will meet resistance values shown

SINGLE CORE THIN WALL CABLE

Part no.	Conductor (mm ²)	Stranding	Maximum Overall Diameter (mm)	Nominal Current Rating (Amps)	Standard Reel Size
CTW010	0.5	16/0.20	1.6	11.0	100m

TRI RATED CABLE

Part no.	Conductor (mm ²)	Approx AWG	Maximum diameter of cable (mm)	Nominal Current Rating (Amps)	Standard Reel Size
CTR6	6.0	10	4.7	55	100m
CTR10	10.0	8	6.5	75	100m
CTR16	16.0	6	8.0	100	50m
CTR25	25.0	4	9.4	136	50m
CTR35	35.0	2	10.6	167	50m
CTR50	50.0	1	12.9	190	30m
CTR70	70.0	2/0	14.6	240	30m
CTR95	95.0	3/0	16.1	300	30m
CTR120	120.0	4/0	17.9	340	30m

Tri Rated single core cable is so named because it complies with three different national standards (American UL, Canadian CSA, & British BS) for heat resisting, PVC insulated, flexible cables, thus eliminating the need for dual stocking. It has a high temperature rating and is flame retardant, and is used extensively for the wiring of switch, control, metering, relay and instrument panels of power switchgear, as well as for internal connections in rectifier equipment, motor starters and controllers.

Specification	Temperature Rating	Voltage Rating
UL Subj.758	105°C	600v
CSA c22.2 No.127	105°C	600v
BS 6231 Type CK	105°C	600/1000v

- Individual Class 5 flexible copper conductors manufactured in compliance with BS EN60228:2005
- Heat resisting PVC insulation also resistant to petrol/diesel, oil and diluted acids
- Available in a range of plain PVC sheathed colours

Please enquire for cables or lengths not listed.

STANDARD PVC AUTO CABLE

Standard PVC Auto Cable is a general purpose, low voltage cable, made up of flexible conductors of stranded copper wire which are PVC insulated. It is suitable for a variety of automotive and marine applications in working temperatures up to 70C. Multi-core versions are commonly used in most British and European towing and trailer applications. Cable descriptions state the number and size of cable strands rather than the total cross sectional area of the conductor. Typical uses might include: side/tail lamps, indicators, fog lamps, car alarms & stereos (**14/0.30**), head lamps, wipers, cigar lighters, screen heaters, fuel pumps (**21/0.30** and **28/0.30**), charging circuits, battery feeds (**35/0.30** and **44/0.30**), heavy duty charging circuits and alternator feeds (**65/0.30** to **120/0.30**).

- Individual conductors manufactured in compliance with BS EN60228:2005 and ISO 6722-1:2011 (Class B)
- Cables manufactured in accordance with BS 6862 Part 1:1971 where applicable
- Working temperature range -15°C to +70°C
- Maximum voltage 60v - Suitable for most 12v and 24v systems
- PVC insulation resistant to petrol/diesel, oil and diluted acids
- Plain copper stranded conductors - PVC sheathed
- Available in a range of plain and striped outer PVC sheathed colours
- The conductor specifications shown may differ slightly but will meet resistance values shown

SINGLE CORE PVC AUTO CABLE

- Outer PVC sheath colour: Black (EC1000: Grey)
- Inner core PVC insulation colours:
- 3 core: Black, Green, Red
- 4 core: Brown, Green, Red, White
- 5 core: Brown, Green, Red, White, Yellow
- 7 core; Black, Red, Green, Yellow, Brown, Blue, White
- 8 core: Black, Red, Green, Yellow, Brown, Purple, Blue, White

Please enquire for cables or lengths not listed.

PVC HIGH TENSION IGNITION CABLE

Part no.	Conductor (mm ²)	Stranding	Maximum overall diameter (mm)	Standard Reel Size
EC75BK	1.15	16/0.30	7.0	30m

Black PVC double insulated high tension ignition cable, which is ideal for the manufacture of high voltage auto distribution leads. This cable is made up of plain copper conductors, double sheathed with PVC to BS6862, and has a working temperature range of -15°C to +70°C.

TWIN SPEAKER CABLE

Part no.	Stranding	Maximum Overall Dimensions (mm)	Nominal Current Rating (Amps)	Standard Reel Size
EC550	2 x 12/0.20	3.65 x 1.7	2	100m
EC552	2 x 24/0.20	4.93 x 2.3	6	100m

A range of flexible, two core, figure of 8 standard speaker cables, with polarity line indicator along one core to indicate the positive tracer, ideal for auto/home loudspeaker connection.

EC550: Black - Black/White

EC552: Black - Black/Red

Please enquire for cables or lengths not listed.

EXTRA FLEXIBLE PVC BATTERY / WELDING CABLE

Part no.	Conductor (mm ²)	Stranding	Maximum Overall Diameter (mm)	Nominal Current Rating (Amps)	Standard Reel Size
CSW16	16	206/0.30	8.7	110	50m

CSW40	40	539/0.30	12.6	300	50m
CSW40-10	40	539/0.30	12.6	300	10m
CSW50	50	640/0.30	13.8	345	10m
CSW60	60	805/0.30	14.8	415	10m
CSW70	70	905/0.30	15.9	485	30m
CSW95	95	1285/0.30	18.2	500	10m
CSW120	120	1695/0.30	20.1	600	10m
The 150 and 185mm cables below are double insulated rubber cables.					
CSW150	150		22.0		10m
CSW185	185				10m

A range of hi flex, extra flexible battery cables, using fine stranded copper conductors with a PVC outer sheath to achieve a product which is ideal for battery or welding cable use.

- Resistant to abrasion, moisture, petrol/diesel, oil and diluted acids
- Working temperature range is -15°C to +70°C
- Outer PVC Sheath Colours: Black, Red
- Manufactured in accordance with the harmonised specification of BS6500
- Individual conductors manufactured in compliance with BS EN60228:2005

Please enquire for cables or lengths not listed.

TWIN HI FLEX BATTERY CABLE

Part no.	Conductor (mm ²)	Stranding	Maximum overall dimensions (mm)	Nominal Current Rating (Amps)	Standard Reel Size
CSW16/2	2 x 16	494/0.20	15.2 x 6.7	106	10m
CSW25/2	2 x 25	779/0.20	18.0 x 8.1	140	10m
CSW35/2	2 x 35	1083/0.20	20.0 x 9.1	171	10m
CSW50/2	2 x 50	1554/0.20	30.6 x 14.6	215	10m

A range of figure 8 configuration, twin hi flex battery cables, which use extra flexible plain copper conductors, insulated by a red and black thermoplastic elastomer, and then sheathed in a transparent PVC sheath, which can be divided to separate the two cores for connection. The working temperature range is -25°C to +70°C, and the cable is particularly resistant to abrasion, moisture, petrol/diesel, oil and diluted acids, making it ideal for a wide variety of flexible indoor and outdoor uses.

RUBBER INSULATED MAINS CABLE

Part no.	Conductor (mm ²)	Stranding	Nominal Current Rating (Amps)	Standard Reel Size
EC3183-6amp	3 x 0.75	3 x 24/0.20	6	30m

Rubber flex is robust and extremely flexible and is designed primarily as a heavy duty trailing cable for portable or mobile equipment.

- Class 5 flexible copper conductors to BS EN 60228:2005
- Sheath: PCP Polychloroprene to BS7655 - oil and flame retardant
- Insulation: EPR Rubber to BS7655
- Temperature rating -30°C to +85°C
- Voltage rating 450 to 750v
- Manufactured to BS7919
- Outer sheath colour: Black
- Inner core colours: Blue, Brown and Green/Yellow

318-Y FLEXIBLE PVC MAINS CABLE

Part no.	Conductor (mm ²)	Stranding	Maximum Overall Diameter (mm)	Nominal Current Rating (Amps)	Standard Reel Size
EC3182Y-1.0	2 x 1.0	2 x 32/0.20	6.4	10	30m
EC3182Y-1.5	2 x 1.5	2 x 30/0.25	7.4	16	30m
EC3183Y-0.75	3 x 0.75	3 x 24/0.20	6.6	6	30m
EC3183Y-1.0	3 x 1.0	3 x 32/0.20	6.8	10	30m
EC3183Y-1.5	3 x 1.5	3 x 30/0.25	8.1	16	30m
EC3183Y-2.5	3 x 2.5	3 x 50/0.25	10.0	20	30m

A versatile flex, commonly used for the wiring of portable and semi-fixed domestic appliances, and extension leads.

- Class 5 flexible copper conductors to BS EN 60228:2005
- Round PVC insulation & sheath to BS7655
- Temperature rating 0°C to +60°C
- Voltage rating 300/500v
- Manufactured to BS6500/1984 Table 16
- Outer PVC Sheath Colours: Black, White, Orange
- Inner Core Colours:
- 2 core: Blue, Brown.
- 3 core Blue, Brown, Green/Yellow

Please enquire for cables or lengths not listed.

ARCTIC GRADE PVC MAINS CABLE

Part no.	Conductor (mm ²)	Stranding	Maximum Overall Diameter (mm)	Nominal Current Rating (Amps)	Standard Reel Size
EC3183Y1.5AG	3 x 1.5	3 x 30/0.25	8.1	16	100m
EC3183Y2.5AG	3 x 2.5	3 x 50/0.25	10.0	20	100m
EC3183Y4.0AG	3 x 4.0	3 x 56/0.30	11.3	25	100m

Arctic Grade PVC is designed to withstand severe external temperatures, remaining flexible at temperatures as low as -20°C.

- Class 5 flexible copper conductors to BS EN 60228:2005
- Insulation & sheath: round arctic grade PVC
- Temperature rating -40°C to +70°C
- Voltage rating 300/500v
- Manufactured to BS6500/1984 Table 16
- Outer PVC Sheath Colours: Blue, Yellow
- Inner Core Colours: Blue, Brown, Green/Yellow

Please enquire for cables or lengths not listed.

HEAT GUN

An 1800w, 230v electric heat gun with deflector shield, which is ideal for moulding heat shrink. Two heat settings at 450°C and 600°C allow flexible control of the heating rate.

V555 Heat Gun 1

MICRO GAS TORCH

This handy piezo spark, refillable micro gas torch, with adjustable flame, is ideal for a range of heating applications, with a flame temperature of up to 1500°C.

V556 Micro Gas Torch 1

CABLE CUTTING TOOLS

A range of cable cutters for standard everyday use. Cuts cable up to 80mm².

V552 Cable Cutters (up to 38mm²) 1
V553 Cable Cutters (up to 80mm²) 1

CABLE STRIPPING TOOLS

A range of cable strippers for removing the PVC outer sheath from cables up to 6mm² in cross section. Jaws hold the cable securely whilst the outer sheath is cut and removed in one operation.

V549 Cable Stripper & Cutter 1
V550 Cable Strippers 1

LIGHT DUTY CRIMPING TOOL

Light duty crimping tool for red, blue and yellow pre-insulated terminals. Also crimps non-insulated terminals from 0.75mm² to 6mm², strips cable 0.75mm² to 6mm², and has an integral wire cutter.

V534 Crimping Tool 1

RACHET CRIMPING TOOL

Heavy duty ratchet crimping tool for red, blue and yellow pre-insulated terminals. The tool has an adjustable tensioner and ergonomically designed handles to reduce operator fatigue.

V535 Crimping Tool 1

UNINSULATED CRIMPING TOOL

Ratchet crimping tool for uninsulated terminals 0.5mm² to 6mm². The tool has an adjustable tensioner and ergonomically designed handles to reduce operator fatigue.

V536 Crimping Tool 1

JUMP LEADS

A range of high quality jump leads made
using flexible, PVC coated, multi strand
copper cable fitted with insulated, heavy
duty, strongly sprung, passivated steel
crocodile clips. As an approximate guide
jump leads are suitable for use on petrol
engines as follows:

16mm² up to 2.5 litres (diesel 2 litres),
20mm² up to 3.5 litres (diesel 2.5 litres)
25mm² up to 5 litres (diesel 3.5 litres).

BLADE FUSE HOLDERS

Side entry. Takes a single standard blade fuse and has 6.3mm male blade terminals. These can be clipped together to form a multiple fuse block.
Colour: white.

EFH2WH Blade 10

Bottom entry. Takes a standard blade fuse and has a 6.3mm male blade terminal. They can be clipped to a mounting bracket, or together to form a multiple fuse block.

EFH3 Blade 10
EFH3B Bracket 10

Scotchlok type. Takes a single standard blade fuse, is easy to use and snaps onto the cable without the need to cut or terminate the cable. 20 Amp maximum rating. Suitable for cable 1mm² to 2.5mm².

ESL6 Blade 20

Splashproof. A range of in line blade fuse holders with splashproof weather covers. The Mini and Std holders come with 1.5mm² cable, and the maxi holder with 3mm² cable.

EFH4 Mini Blade 10
EFH5 Std Blade 10
EFH6 Maxi Blade 10

CONTINENTAL FUSE HOLDERS

A single continental fuse holder with screw down cable connections at both ends.

EFH571 Continental 10

GLASS FUSE HOLDERS

A bayonet action in line auto type fuseholder with moulded body, suitable for 30mm glass fuses and fitted with 1mm² cable.

EFH1 Glass 10

MIDI FUSE HOLDER

This holder accepts a single midi fuse and comes with a snap shut lid and end mounting lugs. Cable connection is via 5mm rings on the end studs. Maximum cable size is 16mm².

EFH562 Midi 1

MEGA FUSE HOLDER

This holder accepts a single mega fuse and comes with a snap shut lid and end mounting lugs. These can be clipped together to form a multiple fuse block. Cable connection is via 8mm rings on the end studs. Designed for a cable range of 25 to 35mm².

EFH569 Mega

1

STRIP FUSE HOLDER

This holder accepts a single strip fuse, and comes with a snap shut lid and end mounting lugs. Cable connection is via 5mm rings on the end studs. Maximum cable size is 16mm².

EFH570 Strip
